EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Catan on June 23, 2004.

The application has been amended as follows:

Claims 12 & 15-17 have been canceled.

In claim 11, line 10, after "first battery" insert ";wherein said second battery includes a mixed electrode having at least two electroactive materials with different discharge potentials, charging potentials and voltage outputs."

In the specification, on page 1 line 2, after "November 30, 1998" insert ",now U.S. Patent No. 6,387,553."

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant claim is allowable over the prior art of record, because the prior art is silent to a power supply for an appliance comprising first and second batteries connected in parallel; said first battery providing substantially all of the energy requirement of a load over a discharge history of said power supply; wherein said second battery includes a mixed electrode having at least two
